^{*} February 1968 data adjusted to 28 days before computing percentage change. ** Correction.

<u>Producer Deliveries</u>. A total of 100,828 producers delivered 3.8 billion pounds of milk to handlers regulated in 58 comparable Federal milk order markets during June 1969. This is 2.2 percent above producer deliveries in June 1968. Average daily delivery per producer increased from 1,190 pounds in June 1968 to 1,256 pounds in June of this year. Producer number, producer deliveries, average butterfat percentages, and average daily delivery per producer for individual markets are shown on table 4.

Producer deliveries during the first six months of 1969 totaled 22.2 billion pounds in 58 markets, 2.5 percent above producer deliveries made during the same period in 1968. (See table 6.)

Producer Deliveries Used in Class I. The volume of producer deliveries used in Class I in 58 markets increased 3.4 percent from last year, to a total of 2.1 billion pounds for the month of June 1969. (See table 5.)

The volume of producer deliveries used in Class I during the first six months of 1969 in 58 markets, totaled 14.1 billion pounds, 2.6 percent above such Class I use during the same period in 1968. (See table 6.)

Percentage of Producer Deliveries Used in Class I. The average utilization percentage in 58 markets for June 1969 was 56 percent, compared to 55 percent last year. The average utilization percentage in 58 markets for the first six months of 1969 was 63 percent, the same as for the first six months of 1968. (See table 6.)

Minimum Prices. The weighted average Class I price paid by handlers in the 58 markets for 3.5 percent milk in June 1969 was \$6.62 per hundredweight, 18 cents higher than the \$6.44 per hundredweight price in June 1968. (See table 2.) Class I prices announced for July 1969 with comparisons with July 1968 are shown on table 1.

Producers in the 58 markets received a weighted average blend price of \$5.47 per hundredweight for 3.5 percent milk in June 1969, 16 cents higher than the \$5.31 price received by producers in June 1968. Class prices, blend prices, and associated butterfat differentials, by markets are reported on table 2.

The weighted average Class I price for the January-June period for the 58 markets was \$6.60, 36 cents higher than the \$6.24 price for the same period in 1968. The weighted average blend price for January-June was \$5.69, 29 cents higher than the blend price of \$5.40 reported for the same period in 1968. (See table 3.)

Fluid Milk Product Sales. Total in-area sales for June 1969 in 60 marketing areas are estimated to be about 2.2 billion pounds, 0.6 percent above such sales in June of last year.

Total fluid in-area sales for May 1969 were 1.2 percent above sales for May 1968. This increase was the result of a 13.0 percent increase in skim and lowfat milk items, and a decrease of 1.2 percent, 4.1 percent, and 4.0 percent in sales of whole milk, mixtures, and cream items, respectively. Complete May in-area sales for total fluid items, and for the four major fluid product groupings (whole milk, skim milk items, mixtures, and cream) are reported on table 8.

For the five months of 1969, total in-area sales of fluid milk items in Federal milk order markets, where comparable data were available, were 1.0 percent above total fluid sales for the same period of 1968. Sales were up for all skim milk items, except plain skim milk. Sales of lowfat (2%) milk, and skim milk with solids added continued to show the largest increase. Sales of all other fluid milk items, with the exception of flavored whole milk, for the January through May 1969 period, were down from the previous year. Whole milk was down 1.4 percent, milk and cream mixtures were down 5.4 percent, and cream items were down 6.4 percent. Daily average sales of individual fluid milk products are shown on table 9.

Filled and Imitation Milk Sales. Survey data of filled and imitation milk sales in Federal order markets, April, May, and June 1969 are presented on table 13.

Table 1 .-- Federal order minimum Class I prices for milk of 3.5 percent butterfat content, f.o.b. msrket or other indicated point, and butterfat differentials, July 1/ 1969 and 1968

^{1/}Volumes include 29-day totals for February 1968. The percentage changes are based on adjusted 28-day totals for February 1968 to make them comparable to 1969.

2/Markets under regulation on January 1, 1968, and which have had no significant marketing area expansions. Excludee Eastern Ohio-Western Fennsylvania, Chicago Regional, Indiana, Nebraska-Western Iowa, Minneapolis-St. Paul, Southeastern Minneacta-Northern Iowa, Georgia, North Texas, and South Texas.

3/Class I plus Class II = 2,784,287 thousand pounds and utilization = 52% in 1968.

^{1/} Plain, flavored, and fluid equivalent of concentrated.
2/ Plain, fortified, and flavored skim and part skim milk, buttermilk, and cultured specialties.
3/ Sales represent the area after the 1969 amendment. (The July 1, 1968 amendment merged and expanded the Wheeling, Northeastern Ohio, and Youngstown-Warren markets and the May 1, 1969 amendment merged the Eastern Ohio-Western Pennsylvania and Clarksburg markets.)

^{4/} Sales represent the area after the amendment. (The July 1, 1968 amendment merged and expanded the Madison, Milwaukee, Northeastern Wisconsin, Northwestern Indiana, and Rock River Valley markets with the area formerly regulated under the Chicago order and the January 1,

¹⁹⁶⁹ amendment deleted from the Chicago Regional marketing area, the area formerly regulated under Northwestern Indiana.)

5/ Sales represent the area after the merger and expansion of Nebraska-Western Iowa and Sioux City, May 1, 1968, St. Louis and Ozarks, October 1, 1968; and, Indianapolis, Fort Wayne, and Northwestern Indiana which was formerly included in the Chicago Regional marketing area, January 1, 1969.

^{6/} Sales for marketing area as defined prior to 1969 amendment.

 $[\]frac{7}{7}$ / Sales for marketing area as defined after the 1968 amendment.

^{8/} Small amount of aales estimated.

MAJOR ORDER ACTIONS, JUNE 1969

Termination:

New York-New Jersey - June 10 (34 FR 9120, 6/10/69). Action continues the surplus milk classification (Class II) of skim milk and butterfat moved in bulk in the form of a fluid milk product to a commercial food processing establishment under certain conditions. However, this action terminates the requirement that such establishment be engaged in some processing and packaging of food products in hermetically sealed containers.
